

RITIK KUMAR

MCA Student | Full-Stack Web Developer

Ritik724995@gmail.com | +91 7249956189 | linkedin.com/in/ritik-kumar-in | github.com/ritik-co | ritikkumar.me

PROFESSIONAL SUMMARY

Full-stack web developer and MCA student (8.04 SGPA) with hands-on experience building secure, payment-integrated web applications using PHP, MySQL, JavaScript, and React. Proven ability to deliver production-ready systems — including a complete print management platform with Razorpay integration, admin dashboards, and role-based access control. Actively expanding expertise in Node.js and cloud deployment.

TECHNICAL SKILLS

Languages: C, C++, Java, HTML5, CSS3, JavaScript (ES6), PHP 8, SQL

Frameworks & Libraries: React, Bootstrap, Tailwind CSS, Node.js, Express.js

Tools & Databases: MySQL, GitHub, Power BI, Razorpay API, Apache/XAMPP, ChatGPT, Google Gemini

PROJECTS

HyperPrint [MCA College Project] - Smart Online Printing Management System

PHP 8 | MySQL 8 | JavaScript ES6 | Tailwind CSS | Razorpay | Apache/XAMPP

- Built a full-stack print job platform covering the entire workflow — secure registration, document upload (PDF/DOC/JPG, up to 20 MB), print configuration, online payment, and real-time job tracking.
- Integrated Razorpay (UPI, card, net banking) with HMAC-SHA256 payment verification and real-time cost estimation before checkout.
- Developed a separate admin portal with live KPI dashboard, AJAX-powered job status updates, CSV report export with date filters, and printer device management.
- Implemented bcrypt hashing, MySQLi prepared statements, session fixation prevention, XSS protection, and IDOR ownership checks for production-grade security.

Vipanee - Full-Stack E-Commerce Web Application

Node.js | Express.js | NeDB | bcryptjs | HTML5 | CSS3 | JavaScript ES6

- Built a full-stack e-commerce platform with Node.js and Express.js featuring RESTful APIs for product browsing, cart management, and order placement.
- Implemented session-based authentication with bcrypt password hashing, persistent login sessions, and secure logout across 4 modular route files.
- Designed 10+ REST API endpoints across Auth, Products, Cart, and Orders modules with full CRUD support using NeDB embedded NoSQL database.
- Built a responsive frontend with vanilla JavaScript and Fetch API for real-time cart sync, product search, category filtering, and toast notifications.

GramSetu AI - AI-Powered Rural Services Platform

React | Vite | Tailwind | Node.js | Express | MongoDB | Python | Flask | Scikit-learn | Docker

- Designed a three-tier architecture decoupling a React frontend, a Node.js/Express API, and a Python/Flask ML microservice, orchestrated via Docker Compose.
- Built a Scikit-learn crop recommendation model served through a dedicated Flask microservice, exposed to the platform via REST.
- Integrated a multilingual voice chatbot using the Google Gemini Live API over WebSockets, plus live weather data via the Open-Meteo API.

Risha - Real-Time Voice AI Assistant with Browser Automation

Node.js | Express | WebSockets | Google Gemini Live API | Chrome Extension (Manifest V3)

- Built a real-time, multimodal voice AI agent using the Google Gemini Live API, with a Node.js/Express backend managing WebSocket audio streaming.
- Developed a web client using the Web Audio API for microphone capture and playback, delivering low-latency conversational interaction.
- Built a companion Manifest V3 Chrome Extension enabling the assistant to read and act on the active browser tab via DOM commands.

EDUCATION

Gurukul Kangri Deemed to be University

2024 - 2026

Master of Computer Applications (MCA)

Sem 1: 8.45 SGPA, Sem 2: 7.8 SGPA, Sem 3: 8.04 SGPA

Hemvati Nandan Bahuguna Garhwal University

2020 - 2023

Bachelor of Science (Computer Science), CGPA: 5.48 / 10

Senior Secondary (12th): 68% | Secondary (10th): 64%

CERTIFICATIONS & TRAINING

- React Bootcamp — LetsUpgrade (December 2024)
- Internet of Things (IoT) — NPTEL, Govt. of India (Jan – Apr 2025)
- Introduction to Industrial 4.0 & IoT — NPTEL, Govt. of India (Aug – Nov 2025)
- Power BI Workshop (October 2025)
- Full-Stack Web Development — Udemy
